

Press Release – 11th September 2009

Augentius is rated Top for Second Year in a Row

Augentius Fund Administration has been named as the “Top Rated Private Equity Fund Administrator” in London and “Commended” in the Channel Islands by Global Custodian Magazine. This is the second year in a row that Augentius has been named as the Top Rated administrator.

“We are immensely proud of this achievement” commented Ian Kelly, Partner and Chief Operating Officer. “Ratings in this survey are purely based on Client responses and the whole survey is carried out independently. We pay enormous attention to the service levels that we provide to our clients and monitor deliverables and service levels on an ongoing basis – producing detailed reporting every quarter” he commented “It is very pleasing that all our hard work translates into awards such as this”.

“The fund administration industry as a whole, and particularly the offshore sector, does not always have a reputation for quality” said JP Harrop, Managing Partner. “When we set Augentius up we wanted to build an organisation that delivered the quality we had always strived for in our previous jobs. We have succeeded in building a business with a “can do” attitude that puts our clients first. We have achieved that within Europe and are now starting to expand our model into other parts of the world”.

In addition to the award from Global Custodian, Augentius has also been shortlisted as “Fund Administrator of the Year” by Private Equity News and Private Equity Fund Administrator of the Year and Property Fund Administrator of the Year by ICFA
