our vision

working in **close partnership**
with the private equity and
property fund communities, we
are the pillar of their back-office
support infrastructure

11,248
 quarterly / annual
 audited accounts
 distributed in 2007

overview

Product Focus. We are totally focused on the servicing of Private Equity Funds, Property Funds, Closed-End Funds and Fund of Funds

Mr Augentius is only 5 years old but has over US \$50bn in assets under administration and has 80 work colleagues

Laying the foundations

We specialise in the servicing of Private Equity and Property Funds, Fund of Funds, Closed-End Funds and listed vehicles.

In the 12 months since the MBO from Ansbacher Fund Services it has been an incredibly exciting and challenging time for the Augentius team. We have grown significantly, laying solid foundations for the continued rapid expansion of our business.

We have secured some of the highest calibre clients from across the Private Equity and Property sectors – both start-ups and established fund groups.

In London, we are the largest and most credible back-office service provider to the Private Equity and Property Fund communities.

Our ambition does not end here

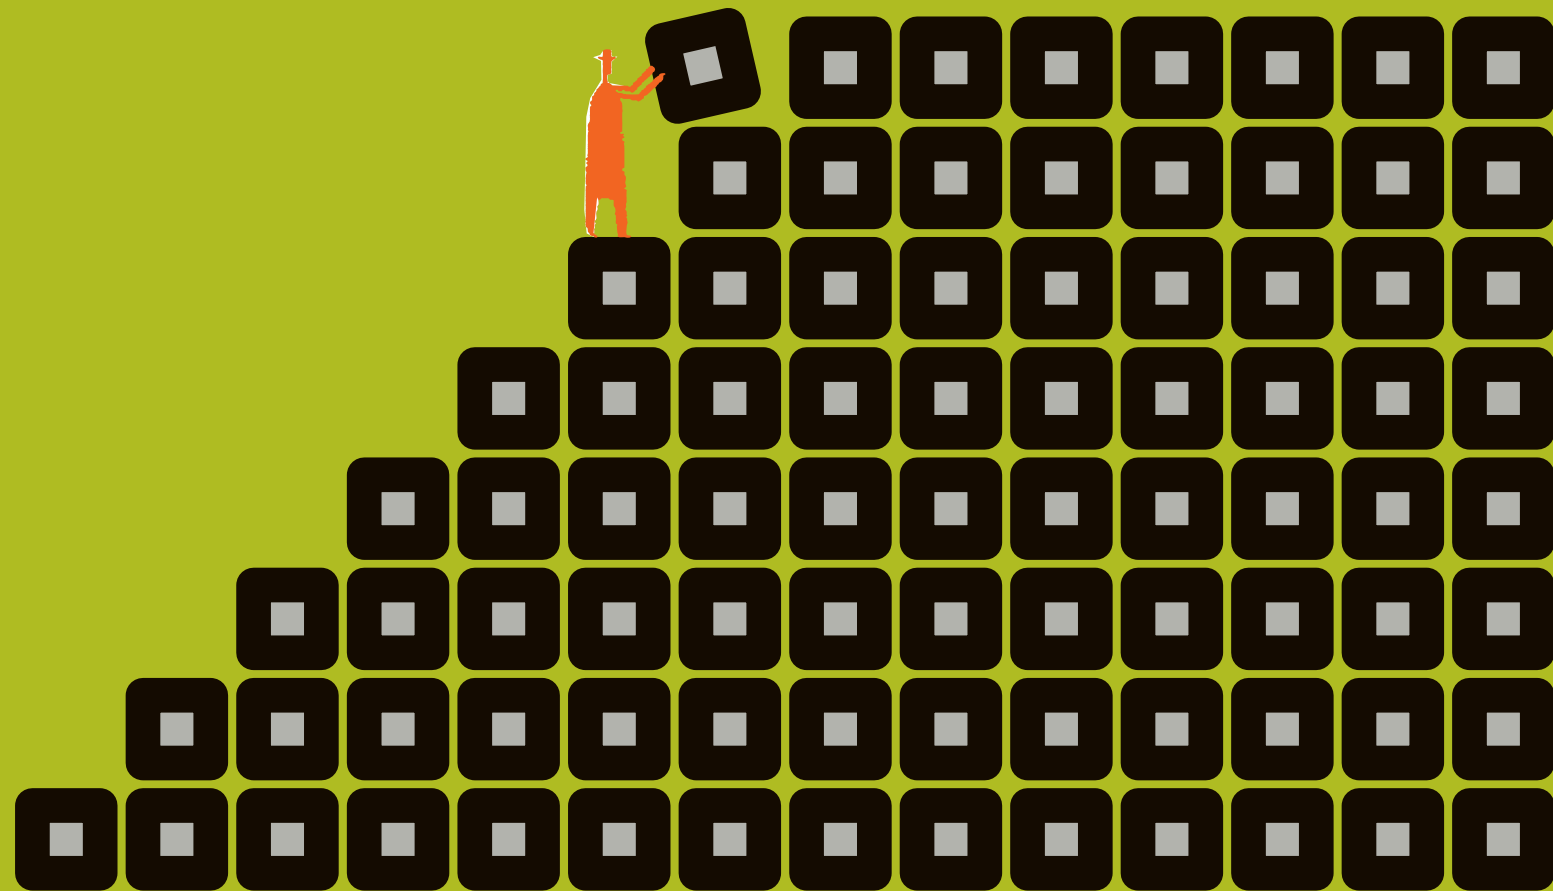

We plan to double the size of our business by this time next year. To achieve this we intend to open a second operational centre in the UK and establish a full service New York office.

We are making considerable investment in our people and technology - "Process Rainbow". Through deepening the relationships with our clients we are tailoring our services further to their individual needs.

We are proud of what we have achieved in the past year and we are determined that this is the start of something big.

what do we do?

The pillar of your back-office support infrastructure

2,812

investor / contact records serviced in 2007

The team is our most important asset

people

Our people drive our success
Which is why we invest so heavily in them.

The past year has seen our team expand from 25 to 80. Investment on an unprecedented scale has been made to train and develop our people to deliver to the highest standards.

We recruit the best. We develop the best. We empower the best. We allow their dynamism, flexibility and desire to make things happen to drive our business forward.

Qualified to serve
We firmly believe that all our clients should be serviced on a day-to-day basis by qualified accountants. Professionals with a thorough understanding of the complex accounting issues involved.

We understand your needs and know how to make fund administration as efficient and painless as possible for you.

We are true product specialists.

looking at technology

Making a complex
business simple

Best in class

The technology we use - Sungard Investran™ - is the number one product-specific technology available. As our business and clients have become more complex, our technology has evolved. We partner with Investran to stretch and develop the platform. We are the primary beta-tester for, and plan to install, Investran's new Version 6.

Secure web-based reporting for investors is provided, in line with our clients' demands for such functionality.

Staying ahead of the game

We are not satisfied to leave it there. Constant innovation and improvement is the name of the game.

2008 will see major investment including the introduction of advanced new workflow technology. The result? An even higher quality and more efficient service for our clients.

taking our business to the next level

World operations and
prospects in view

Solid foundations

From our present bases in London, Guernsey and the Middle East we have a solid foundation for future growth and expansion.

We intend to open a second operational centre in the UK. This will enable us to recruit more aggressively in accordance with our rapid growth plan.

Global reach

Our strong growth ambitions require an extension of our global reach.

The next 12 months will see the establishment of an office in New York and the continued development of our presence in the Middle East, allowing us to better serve our clients based or active in these areas.

offshore

Guernsey/Jersey/BVI/Delaware/
